4. The Dewey Decimal System groups library materials by:

- a. Color
- b. Copyright date
- c. Subject
- d. None of the above

5. Why would you use WebPath Express rather than Google?

Any answer that contains some of the following: WebPath express is a database of websites that have been vetted or checked by educators to make certain the material on the websites are accurate.

Using a resource that has been vetted or peer-reviewed saves time for the student researcher. The student researcher doesn't have to check the information for accuracy or complete a web-evaluation.
